

## Job Description: Software Developer | XYZ Corporation

### Responsibilities:

- Develop and maintain web applications.
- Collaborate with cross-functional teams to design, test, and implement software solutions.
- Write clean, scalable code using JavaScript, React, Python, and SQL.
- Debug and troubleshoot issues to ensure efficient system performance.

### Requirements:

- Bachelor's degree in Computer Science or related field.
- Experience with full-stack development.
- Strong knowledge of front-end technologies (React, HTML, CSS).
- Familiarity with database management (SQL).
- Strong problem-solving and communication skills.
